

City of Flagstaff - THORPE PARK AREA GRANT AWARD INFORMATION

Federal thru State Funding – National Park Service through AZ State Parks, Land and Water Conservation Fund

1971-72 – Thorpe Park Ramada & Bleachers Project

1971 – Thorpe City Softball Lighting

1977-78 – Flagstaff Tennis/Handball Courts

1978-79 – Thorpe Park Playground Improvement

1984 – Thorpe Park Ballfield

Term of Public Use – Projects funded through the LRSP Heritage Fund must be available for public use for the term specified in the General Provisions that are attached to the Participant Agreement that all successful LWCF/LRSP Heritage Fund grant applicants must sign and become part of the project agreement.

The term of public use is as follows:

Facilities (real property): 25 years

Land acquisition: 99 years

Please note that if the project receives **Land and Water Conservation Funds**, the project area must be maintained in the grant-funded condition in **perpetuity**.

State Funding - AZ State Parks, Heritage Fund Program

2003 – Thorpe Park Improvement Phase I, Four lighted softball fields, Multi-use field, Combined restroom & concession building, Walkways, Pedestrian lighting, Parking area, Site infrastructure

Term of Public Use – Projects funded through the LRSP Heritage Fund must be available for public use for the term specified in the General Provisions that are attached to the Participant Agreement that all successful LWCF/LRSP Heritage Fund grant applicants must sign and become part of the project agreement.

The term of public use is as follows:

Facilities (real property): 25 years

Land acquisition: 99 years

Please note that if the project receives **Land and Water Conservation Funds**, the project area must be maintained in the grant-funded condition in **perpetuity**.

Location of Improvements –

State Funding – AZ Game and Fish, Heritage Fund Program

2005 – Frances Short Pond Restoration Project

2006 – Frances Short Pond Phase II, Implementing Standards Based Environmental Education Activities

2009 - Frances Short Pond Enhancements Phase III, Purchase & install solar aeration system

2016 – Frances Short Pond Wildlife Project, Wildlife focused education and field trips, enhancing watchable wildlife experiences through program and interpretive design development.

Term of Public Use - The Department will assign a “**useful-life period**” for HG projects that require a “**term of public use**” as a condition of the grant awarded. The term of public use for some projects will extend beyond project close-out as determined by the Department. At the beginning of the grant award process if the Department determines that a project requires an extended term of public use, this will be defined within the “**Special Conditions**” section of the Grant Agreement. Special conditions are accepted when the agreement is executed. Examples of projects that might require an extended useful-life and term of public use are as follows:

Concrete/metal structures (i.e., ramps, habitat features, benches, tables, ponds, fencing, etc.): **10 years**

Wooden buildings & structures (i.e., kiosks, benches, tables, fencing, floating boat docks, etc.): **5 years**

Equipment (i.e., mechanized, computers, microscopes, binoculars, scientific monitoring, etc.): **5 years**

Projects should result in a discrete product, e.g., facility, property feature, written report, or program available to the public, or used for public benefit. Properties, facilities, and services funded by a HG must be operated and maintained for the “term of public use” of the project. The applicant must control land or waters on which capital improvements are made (through fee title, lease, easement, or agreement). Control must be adequate for protection, maintenance, and use of the improvement throughout its useful life.

Location of Improvements -

Federal thru State Funding – Environmental Protection Agency through AZ Department of Environmental Quality, Clean Water Act

2003 – Water Quality Improvements for Frances Short Pond

Operation and Maintenance - Any management practices (nonpoint source pollution control measures, remediation, etc.) implemented for the project must be properly operated and maintained for the intended purposes or as defined in the special conditions of the Grant Agreement. Operation includes the administration, management, and performance of non-maintenance actions needed to keep the completed practices safe and functioning as intended. Maintenance includes work to prevent deterioration of the practice, repairing damage, or replacement of the practice to its original condition if one or more components fail.

Location of Improvements -

Federal thru State Funding – Environmental Protection Agency through AZ Department of Environmental Quality, Clean Water Act

1997 – Underground Storage Tank Removal, Public Works Yard
